

## How to Choose the Best Shirt Size for This Event

Shirt sizes vary greatly depending on the manufacturer, style, material, and even country of production. We hope to be able to help you select the best fitting size by providing you with the following measurements for the specific Under Armour shirt we have chosen for this event. We recommend that you find a well fitting shirt that you currently own and take the following measurements as indicated in the diagram. Below, you will find the measurements for the sizes we offer in this year's PAWS shirt. Compare the measurements below with the ones you have taken from your shirt at home, and choose the size that most closely represents the fit you are interested in attaining.
